

Platinum Warranty Corporation knows how important security and peace of mind are to their customers and employees. A successful company does not gain momentum without the help of a supportive staff and a loyal customer base.

Recently, Platinum Warranty Corporation accepted an award for the top performer in revenue and employee growth in 2002.

It was accepted on behalf of the tow truck drivers who respond at 2a.m. for the couple trying to make the eleven-hour drive to the hospital in time to see their first grandchild.

# THANK YOU.

It is for the dedicated mechanics who put in an extra shift to ensure their services are thorough and a vehicle is safe before it is returned to the accountant who is taking his family on vacation for the first time in two years.

It is for the professional team at Platinum Warranty Corporation who asserts and upholds the dignity of a company who cares about their customers. And the customers who have faith we will be there to protect your vehicle, your investment and your loved ones.

One award, a million to thank.
